

# Russian Revolution Poster Assignment

CHY4UI

Chard

You are living somewhere in Russia in 1916. You are concerned about the current political situation. In your group, create a poster for a movement whose aim is to encourage a change OR to maintain the dominant social order under the Czar.

## Examples:

You might be a communist revolutionary.

You might belong to a group of military officers.

You might represent the Russian Orthodox Church.

You might be an anti-war activist.

You might be advocating land reform.

You may be a veteran of the 1905 war with Japan.

Whatever your “cause,” keep the following in mind:

1. Be sure it actually “fits” with early twentieth-century Russia (avoid anachronisms.)
2. Try to include as much accurate detail as possible (draw on notes, the textbook, etc.)
3. You are creating propoganda – the message should be clear and obvious, don’t make it too complicated.
